

TAKE DOWN POLES ON WAIKIKI ROAD

The poles of the telephone company, which poles it was promised would be removed the latter part of this week, still disfigure the middle of the Waikiki Road along the extension of the Rapid Transit Company's line. The poles have been taken out of the road to a point opposite the Annex to the Hawaiian Hotel. To that point, the Waikiki Road, with the electric cars running along one side of it, is a beautiful drive. Then the ugly poles obtrude themselves, and the beauty diminishes almost to the vanishing point.

Now Superintendent of Public Works Cooper gave the telephone people notice some time ago that these poles must all be removed. It was in response to that notice that the promise was made that they would be taken out before the latter part of last week. They were not taken out. Superintendent Cooper has therefore given further notice to this effect, namely: That if the poles do not come down at once the Board of Public Works will put a force of its own to tearing them down, and they will be disposed of effectually and for all time.

Mainland Bar Prices Adopted for Honolulu.

The time honored custom of charging 25 cents per drink at the hotel bars of this city is about to give way under the modernizing influences which are at work in all directions. The proprietors of the Hawaiian Hotel and the Waikiki Seaside Annex, recognizing that this is now an American city, have decided to adopt the standard of charges on the Mainland—15 cents per drink or two for a quarter. We have been advised that the change will take effect from today.

Important Reasons

Why Herring-Hall-Marvin Safe Co. Safes
and Locks are the Best.

The concrete filling makes these safes absolutely fire proof and positively damp proof. The solid angle corners add greatly to their security in time of fire and form the only solid corners made. The patent Bolt Work is superior to any in use and does not require the constant oiling, cleaning and repairs that is acknowledged in other makes of safes. That although 600,000 of these safes are now in use and many thousands have been tested by some of the most disastrous conflagrations in the United States, there is not a single instance on record wherein one of them ever failed to preserve its contents perfectly. They make safes for county treasurers, county recorders, county clerks, jewelers, hotels, residences, churches and corporations. We have a large assortment of safes on hand and will be pleased to show same.
